PRO SNOW

LINE

Passenger Mobility Equipment Solutions

Four-season moving carpet systems for mountain, leisure and event operations.

In partnership with

FICAP FUNBELT

EXCLUSIVE U.S. DISTRIBUTOR

High-capacity mobility. Built around your terrain.

Custom-engineered systems for efficient, continuous passenger movement across ski areas and leisure destinations.

FUNSPEED®

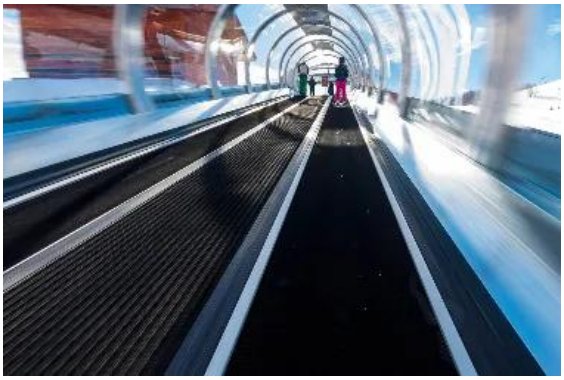

SINGLE-BAND LEISURE MOVING CARPET

A high-speed, wide-band moving carpet for long distances and demanding traffic flow. Designed for intensive winter and summer use.

1,970 ft	30%	2,000/hr	2.7 mph
MAX LENGTH	MAX SLOPE	THROUGHPUT	MAX SPEED

KEY ADVANTAGES

Up to 79 in. wide • Side-by-side travel • Customizable belt • Foundation-free design • Four-season use

TWINLIFT®

DOUBLE-BAND LEISURE MOVING CARPET

A double-band “skier magnet” engineered for the busiest slopes, base areas and connection zones—doubling capacity while reducing queues.

1,970+ ft	30%	4,000/hr	2.7 mph
MAX LENGTH	MAX SLOPE	THROUGHPUT	MAX SPEED

KEY ADVANTAGES

Double the capacity • Accessible boarding • Widened entrances/exits • Custom galleries • Panoramic experience

Performance figures are maximum capacities and remain dependent on terrain, configuration, use case and final engineering.

Purpose-built solutions for every stage of the guest journey.

From first turns to high-capacity lift boarding and all-weather protection.

FUNSTART®

BEGINNER MOVING CARPET

330 ft	15%	1,300/hr
MAX LENGTH	MAX SLOPE	THROUGHPUT

Smooth, low-speed transport for children, ski schools, beginner areas and small sled runs. Optional protection gallery and high-grip belt systems support comfort, confidence and straightforward maintenance.

FUNLOAD®

POSITIONING & BOARDING

4,400/hr	20,000+	POMA
INSTANT FLOW	DAILY USERS	PARTNERSHIP

A lift-station positioning carpet for detachable chairlifts and other high-capacity systems. It precisely stages passengers, improves boarding comfort and safety, and separates the user interface from the drive system.

FUNVISIO®

PROTECTION GALLERY

An all-weather protective gallery compatible with moving carpets of any brand. FUNVISIO® reduces weather exposure and maintenance demands while creating a safe, customizable passenger environment.

ANY BRAND	4-SEASON	PV-READY*
COMPATIBLE	PROTECTION	OPTION

Options include panoramic glazing, widened walkways, front and lateral exits, LED lighting, branding, reception structures, fire-safety systems and photovoltaic integration.

*Photovoltaic configuration is approved by STRMTG in France; U.S. design, permitting and code compliance require project-specific review.

One platform. More seasons. More possibilities.

FUNBELT® systems extend beyond skier transport to create versatile mobility infrastructure for mountain, leisure and event operators.

OMNISPORT	**Four-season leisure mobility** Skiing, snowboarding, tubing, sledding, mountain biking, hiking, mountain carts, pumptracks, golf, watersports and other continuous-flow activities.
EVENT	**Immersive movement** Custom systems for live shows, theatrical scenography, concerts, exhibitions, fashion events, theme parks and branded experiences.
STYLE	**Custom architecture** High-resistance galleries and covers—from clean protective enclosures to panoramic structures, escalator covers and extreme-snow-load solutions.

WHY FUNBELT®

40+ YEARS	120M+	4-SEASON	CUSTOM
FICAP industrial expertise	passengers transported annually	systems designed for year-round use	engineering for each project

U.S. PROJECT SUPPORT

Pro Snow Line is the exclusive U.S. distributor for the full FUNBELT® product line—helping resort, leisure and event operators evaluate applications, define project requirements and coordinate directly with the manufacturer.

REQUEST PRODUCT INFORMATION & PRICING

Submit your project details at prosnowline.com/contact.
Our team will follow up with recommendations and pricing.

All systems require final engineering and project-specific code review for U.S. installation.
